

The Versatile Fleet and Performance Transmissions... 9-to-13-Speed “Convertibles” for Efficiency, Performance and Maximum Trade-In Value

The Fuller Convertible operates as a simple 9-speed transmission. It can then easily be converted to a 13-speed to increase vehicle versatility and resale value at trade-in time.

9-Speed – 13-Speed – The Best of Both!

For the first owner, you get a simple, reliable 9-speed. The second owner, with the purchase of an inexpensive conversion kit, gets the legendary Fuller 13-speed transmission – for the utmost in performance and versatility.

Proven Payback at Trade-In Time

The average resale value on a truck equipped with a Fuller 13-speed transmission is up to \$3,000 more than the same truck equipped with a 10-speed transmission.

Proven Customer Preference at Trade-In Time

A truck equipped with a Fuller 13-speed transmission spends half the time on a dealer’s lot, on average, than an equivalent truck equipped with a 10-speed transmission.

A Warranty That Fits Your Needs

Fuller Convertible transmissions allow an owner to extend the warranty up to 6 years and 600,000 miles – providing extra protection for the second owner. To understand the coverage that applies to your specific vocation, please see the Vocational Warranty Guide (TCWY0900) at www.eaton.com/roadranger.
